By the end of the century, its market capitalisation surpassed that of its US rival. But as it grew in the second half of the 19th Century, the market was beset by scandals and corruption that ultimately saw the exchange re-enter the period of greatest depression in British economic history, leading to its near collapse at the start of the 20th Century. Revival Eventually, the stock market recovered to nearly a pre-Victorian level in the 1920s, with London the dominant financial centre of Europe. Image caption At the time, the London Stock Exchange was the largest in the world But rising trade barriers in the post-Second World War era meant international trade shifted away from the UK, and thus from the LSE. The exchange recovered from its near-collapse in the 1980s - with its stocks triple in value by the end of the decade. Margin trading Margin lending is the practice of individuals borrowing money against the security of their personal wealth. The LSE was the first exchange to introduce margin trading when it was set up. 3e33713323
