The start of a blog post ## # Hey guys! I'm glad to be writing on my blog again! A new blog series I am starting is called "Top 10 Articles" where I will walk through some of my favorite articles online and talk about why they are so great. I hope you enjoy this first edition of the series. Here are the top 10 articles I have found on the Internet that everyone should read: #10 – How to Hack Any Website Using Kali Linux (Video) #9 – How to Access Blocked Websites (Video) #8 – Learn Windows 7 in One Hour (Video) #7 – Can I Trust My Facebook Friends? (Video) #6 – Track Your Online Activity with Tor (Video) #5 – How to Make A Website Online Using HTML & PHP (Creating A Blog On Wordpress, Video tutorial, with source code provided.) #4 – Ways to Make Money Online (Video) #3 – How to Hack a Website Using Web Scraping Tutorial (Video tutorial.) #2 – 3 Free Online Courses to Learn Nmap, Kali & Netcat (Video tutorial) #1 – How to Use Google's "Do Not Track" Privacy Feature (video) The following is a list of other articles I wrote while I was at Penny Arcade: I hope you enjoyed this blog post and look forward to the next one:)

how to install? ## 1. Unzip the file and run the trainer.exe program. 2. Make sure you have the latest DirectX installed. 3. Select the Max Payne 3 game to start the trainer. You can also use the other options on the main menu to change other options. 4. When you are prompted with "Do you want to run this program" select Yes and press Ok (If it says "Max Payne 3 is already running" then close Max Payne 3 and try again)
