Download Windows Loader v2 2 2 by Daz.exe 23.96 MB. Q: subset data by unique variable value I have a dataset that has a variable, slot number. Some of the slot

numbers are the same, for example, if a person has a slot number that's in the 200s there might also be a slot number in the 300s. I want to know if there are any other slot numbers in the dataset that are not duplicates of any other slot numbers. I've tried using `table(data$slot_number)` and while that does give me the number of slot numbers, it doesn't give me any information on whether there are other slot numbers in the dataset. For example, the

`table(data$slot_number)` returns...

```
table(data$slot_number) slot_number 100
200 300 400 500 600 700 800 900 1000 12
13 14 15 16 17 18 19 20
```

Dec 19, 2019 Read the description of the Windows 7 Loader v2.2.2.0. The Team has released a new version of Windows Loader v2.2.2 which is the most up to date and trusted download. Oct 16, 2019 the information about this download Windows Loader v2.2.2 by Daz.0.
