EvJo Wallpaper Changer Torrent Download is an easy-to-use desktop wallpaper management application that makes the process of quickly changing background images seem simple even to those who are not computer experts. The tool supports many popular graphic formats (BMP, JPG, GIF, PNG, TIF) and it allows you to import pictures not only from your computer, but also from online resources. You can add entire folders of pictures or just create a playlist of your favorite images. The interface of the program is very simple and straightforward. It comprises only four tabs that are present in the upper part of the layout from which you can choose how to tweak your display options. Set wallpapers automatically EvJo Wallpaper Changer lets you add pictures via the drag-and-drop support. Plus, you are allowed to scan custom directories for new wallpaper files. The application helps you configure several parameters that determine when the desktop background is changed. You can select from a wide range of options, namely alter the wallpaper when the program starts and change the desktop background when you exit the tool. You can also select from more advanced settings options, such as have the image changed at specific time or

simply display a different one every hour. Tweak configuration settings You can entirely configure your application. You can use a predefined language or you can add a new language by following the integrated steps.

You can also allow the tool to automatically check for updates to make it sure that you always have the newest version. The program let you configure how images fit on the screen, reassign hotkeys, and set other performance options (to close the utility automatically after 30 seconds from startup). Final remarks To sum it up, EvJo Wallpaper Changer is a user-friendly tool that can change the looks of your desktop with only few mouse clicks. Unfortunately, this wallpaper manager does not support multiple and dual monitors.... read more
