WebPictureDownloader is a software tool whose purpose is to provide individuals with a reliable and fast method of downloading pictures from the Internet and saving them to the hard drive. Fast install and intuitive UI The installation process does not bring any kind of surprises and it is over in a few moments, while the interface is organized in an efficient manner. It contains a menu bar, several buttons and a few panels to help you view all projects created, containing items, picture previews and a few other details. It becomes apparent that it is suitable to both power and novice users. In fact, the utility provides a new project wizard, so that you can be guided every step of the way. Download images, songs and text files This software program enables you to create an unlimited number of projects, by providing the starting URL, username and password (if required) and output folder. It supports quite a large number of files from pictures (GIF, JPG, PNG, BMP, TGA, TIF, PSD) to audio (MP3, WMA, WAV, MIDI, AU) and other documents (DOC, XLS, PPT, PDF, TXT). View downloaded files and create slideshows Once you press the "Start" button, pictures are going to be downloaded to the computer. It is possible to view all downloaded items in a list in the main window, along with information such as URL, local path, state and size. You can open a media file, copy an URL to the Clipboard, set your favorite image as a wallpaper and start a slideshow. Bottom line CPU and memory usage is low, even during the download process. Jobs are completed quite quickly, the environment is user-friendly and extension support is impressive. In conclusion, WebPictureDownloader is a reliable and well-rounded piece of software.A network of several high-risk health providers has issued an alert on Sunday saying that 30 patients have already died of COVID-19 in the US. Among those who have died were 11 in California and seven in Texas. The patients who have died had underlying medical conditions. "We are not hearing about a large number of new cases in most parts of the country, but we are hearing about new deaths, which is something we have never experienced before," Dr. John Robbins, chief medical officer of the American Heart Association, told media outlets. "We need to be prepared for more cases and more deaths of older adults
