Please leave a message or trackback if you notice any problems. This screensaver was released on October 10, 2014 with no negative feedback. A day later, a new one was released on October 11, 2014. There are changes to the program in later releases, so do not use this screensaver on an operating system that supports the screensaver. Impotant, I like your program, thanks. I have a question, and perhaps you can help me. I have some pictures that I uploaded on my computer, is there a way to convert them to a screensaver? If not, do you have a link to download a screensaver from a site, or a site that would upload my images and convert them? I would

appreciate it if you could answer my question, thanks in advance The download site would actually have to be able to handle uploading the images to you. The site I use sends the image to my email so I can download it. -Waterfall 5 - I just found this wonderful screensaver in Synaptic package manager under "other" section. It is a beautiful pictures of a waterfall, and after I set it as the screensaver, the image begins to play for a little while, then stops, and the screen goes blank. Then the window closes...
