Once a drawing is created, it can be saved as a DWF, or sent to a printer. The drawing can be shared, or exported to PDF or DXF format. Like AutoCAD, LT can be used for 2D drawing, 3D drafting and 2D / 3D conversion. Software applications for CAD, GIS and other geospatial information systems are typically based on specialized technology, such as 2D CAD, or GIS. AutoCAD LT and other AutoCAD LT derivatives do not support these technologies. Instead, the software product is based on AutoCAD. AutoCAD LT AutoCAD LT was first introduced at the Autodesk World Expo 2011 in Las Vegas, in March 2011. It has been developed by Dassault Systemes in the form of a fork of AutoCAD.
