Let us, for a moment, remember that this is a brand new day. Today, even though President George W. Bush has just died, the various members of the Obama administration have already moved quickly to begin clamping down on any sort of media that will even hint at democracy and an independent judiciary. Evaluation of the antimicrobial activity of a temozolomide-containing powder for dry socket dressing--an in vitro study. The aim of this study was to evaluate the antimicrobial activity of a powder containing the active compound temozolomide for the treatment of patients suffering from dry socket.
