The download page is broken: We are no longer able to provide downloads for the Blizzard Battle Chest boxed edition of Diablo II. As a result, the CD key field in the registration form is no longer available. If you already have a key, please register using it. If you don't have a key, you cannot register. We regret the inconvenience. Do not attempt to use the CD key found on the cracked version. This will break the game as it will register with the server you select. Instead you must use your original CD copy of the game. This is the same problem with the retail boxed edition.
