I have to add the Content-Disposition header with the value attachment so that the media player knows that he has to download the image. The document says that you have to append a semicolon and then the name of the file. So I have: Content-Disposition: attachment; filename=TheImage.jpg But I get this error: XMLHttpRequest cannot load Origin is not allowed by Access-Control-Allow-Origin. I think it's a security problem. Can I use this header on Android? Any ideas? A: For a cross-platform solution, you could use the HTML5 tag or window.open(), both of 3e33713323
