Smart Diary Suite Crack+

========= Smart Diary Suite is a professional software application designed to help users write down detailed personal information in a virtual diary, with the possibility to encrypt sensitive data and insert images, video or audio tracks within their entries. The user interface is clean and allows you to add a new diary to the list by specifying the name, gender and date of birth, and picking the saving directory. Plus, you can set passwords to protect your information from unauthorized viewing, and add hints and answers. Smart Diary Suite features a built-in scheduler which lets you add daily, weekly or monthly entries. What's more, for each appointment you can add a description and reminder, set the tasks as completed or delay them for the next day, as well as embed attachments by uploading video, audio or other files. You can create a to-do list with tasks to be performed, set reminders, insert attachments, and mark the tasks as done. When it comes to adding a personal note to the diary, you can use the built-in text editor, which allows you to change the font style, number, color and alignment, activate the spell checking mode, and insert images, URLs and links. The nutrition section enables users to create recipes and categorize them, add ingredients, design a shopping list, and perform measurement operations between different weight units. Plus, you can generate a list with contacts by giving details about them and insert attachments. Other important features worth mentioning are represented by the possibility to activate the automatic backup option at a specified time interval, print the selected diary entry, perform searches throughout the entire database, and view the entries in a graphical representation. All in all, Smart Diary Suite comes packed with many useful features for helping you create a private diary where you can add personal information, schedule appointments, and create to-do, shopping and recipe lists. Smart Diary Suite - Description ============================ Smart Diary Suite is a professional software application designed to help users write down detailed personal information in a virtual diary, with the possibility to encrypt sensitive data and insert images, video or audio tracks within their entries. The user interface is clean and allows you to add a new diary to the list by specifying the name, gender and date of birth, and picking the saving directory. Plus, you can set passwords to protect your information from unauthorized viewing, and add hints and answers. Smart Diary Suite features a built-in scheduler which lets you add daily, weekly or monthly entries. What's more

What's New in the?
