THE CONTEMPORARY GUIDE TO CURRENT ISSUES thecontemporaryguide.com is a participant in the Amazon Services LLC Associates Program, an affiliate advertising program designed to provide a means for sites to earn advertising fees by advertising and linking to Amazon.com.Q: OAuth to web api: unauthorized error when the result status code is 200 I have a web api which uses oauth 2.0 for authentication. I have the issue when the oauth service is hosted on localhost. For some reason, I always get unauthorized error, when I hit the web api at with some valid token. But, I can hit the web api at and get the result at which status code is 200. I don't know what I'm

doing wrong. The api works fine with oauth when the oauth service is hosted on azure. I have checked the request and response headers, but I can't figure out the issue. A: Ok, I found the answer. I should have read the authorization_code from the request response. In this case, I used the authorization_code with the wrong token. This code was returned from the oauth response.

```
var response = await client.RequestMessageAuthenticationChallenge(request); if (response.IsClientSecured) { var token = new AuthenticationHeaderValue("Bearer", response.AccessToken); req.Headers.Authorization = token; } The following
```
