No other phone is as endearing
as the Samsung Gear S3 Classic.
All-day battery life is a delight,

and it's a pleasure to hold. It's easy to pair with your wireless device by pressing a button and moving your finger around a rim of the watch. Samsung has made a smart watch with looks, feel and features that are right up your alley. On the surface, the Gear S3 Classic looks like a traditional smart watch with horizontal lines that are reinforced by a brushed silver bezel that's reminiscent of a chunky timepiece. This unisex watch is available in silver and

black, making it a truly fashion-forward accessory. It's reasonable in size, so you won't have to worry about it getting in the way of your daily activities. Samsung has packed the Gear S3 Classic with so many features that you'll want to upgrade everything on your phone. The Gear S3 Classic is a fully-fledged smartwatch. It supports the most popular communication apps: texting, calling, email, and social media. The messaging and calling

features come in handy with the smartwatch's integration with the Samsung Galaxy S7 and S7 edge. It can also function as a fitness tracker, giving you simple step counter, heart rate monitor, and sleep tracker. It tracks your steps, calories burned, and distance traveled throughout the day. The watch offers a decent-sized screen which is viewable even in bright sunlight. This feature is essential when spending time outdoors or on the go.

Waterproof rating is IP68, which means that the Gear S3 Classic is fully water-resistant. The Samsung Gear S3 Classic can be customized to show the user's current step count, and offer simple notifications. It won't compete with more expensive watches such as the Apple Watch, but can be a pretty good-looking addition to your fashion arsenal. The Gear S3 Classic features:

- Always-on screen: The Gear S3 Classic lets you see your messages, updates,

and your friends' activity
without lifting a finger.

- **Connected to the Samsung Galaxy S7 or S7 edge:** The Gear S3 Classic can connect to the Samsung Galaxy S7, S7 edge, and Galaxy S7 edge Plus. The latter two models offer bigger screens and improved cameras.
 - **Best-in-class battery life:** All-day battery life means you can use your watch with ease.
 - **Waterproof Rating IP68:** The Gear S3 Classic is fully
