Q: Python: Split string into a list of strings by tags I'd like to split a list of strings by tags. I can't get the desired results. The list is at first a list of 2D coordinates of a board. this is what it looks like: `tiles = [[1, 2, 3], [4, 5], [1, 3, 4], [5], [1, 3, 5], [2]]` and the tag is the 2D coordinates, each tag is a string with 2 char's representing the coordinates of a square. So my tags look

like this tag1 = '4, 1' tag
