FIFA is EA SPORTS's most successful football videogame series, with over 80 million units sold since the first FIFA game was released. The team at EA Canada wanted to build a better football experience and took a significant step forward by bringing the authentic sounds, gameplay, and feel of real football. The result is FIFA 22, a game that makes football more social, authentic, and fun than ever. Over 2,000 features - more than on a Super Bowl title - have been added. What's new for FIFA 22? FIFA 22 is the most ambitious title in the history of EA SPORTS. New features and gameplay innovations have been added to expand the FIFA experience for the entire football fan base. The FIFA Experience As you take to the field with an arsenal of new tools, movements, and shot mechanics, you'll feel as if you're actually playing. In addition to that, the game is even more dynamic with gameplay changes and visual improvements based on fan feedback. With refined dribbling mechanics and flexible, powerful ball control, every player and every situation is an opportunity to perform. New Features & Improvements FIFA 22 brings an array of new features and upgrades that expand the FIFA player base, including the ability to control the entire opposition team, improvements to the off-ball movement system and situational awareness, and much more. Ultimate Team Mode Now players are no longer defined by the number of players on a team. In Ultimate Team Mode, players are classified as attackers, midfielders, and defenders, allowing teams to be built in the correct configuration. This new organizational structure takes into consideration the most recent team ratings and expands the depth of your team by including players who wouldn't traditionally belong to your team. For instance, a keeper can now be selected as a defender if you need a strong penalty kick taker, or a midfielder with exceptional stamina if you need a holding midfielder. Players can be rated for certain match situations and continue to evolve throughout the season. In Ultimate Team Mode, players can also be upgraded using real-world currency. To boost players in their most vital categories, you'll need to make use of a wide range of actions, celebrations, challenges, and more. Unlock players to earn your rewards. Extraordinary Skill Moves Using an all-new toolkit based on the intense feedback from fans, this season of FIFA adds an abundance of new shots, gestures, and skills
