Tree of Knowledge 4th,5th 6th edition Now available Description It has already been said that the Tree of Knowledge stands at the pinnacle of all the horizons of human imagination. It is so much so that one who has knowledge can't but be a philosopher. He can be anything. In Tree of Knowledge, Asaf Ali seeks to share a vision of "the dawning of a new era, the time when man crosses over a threshold and sees the light of truth for the first time". He seeks to remind us of the glorious past where knowledge was enjoyed and how it dawned. He seeks to show, a history, a journey, an initiation, a path which may lead to the same goal. It is essentially a history of human knowledge. It provides a vivid picture of what might have been and the sense of a man who was on the threshold of an unknown world, seeing the luminous beginning of the journey towards the knowledge of the truth. He tries to bring us back to the pleasures of knowledge, to the joys of philosophy and to the mysteries and mysteries of the human mind.
