Bmw X5 Automatic Function Removal - Automobile Mechanic, Diesel and Gasoline Engine Repair Question. It would be a piece of cake, assuming I am able to download the map files without having to pay. I don't care if I need to use a different engine. ABOUT . Custom code FSC to update the database navigation system (CIC). If you need it, please download . My 2 I have a 2005 X5 with the following problems. For some reason, my interior lights "off" when i start the car and they will not turn on unless i take the key out and put it back in. When i put the car into park and shift it back into drive, its loses that ability to do that. In the morning, i leave my car in the "cold" setting overnight, in the morning the car will start and the heater does it's job, but when i turn the car on, there is no running. There is no sound, no dashboard lights, ect. The car is an automatic, and i have been taking it for a drive to try to just see if i can get it to start when i turn the key, and i have not been successful. My battery is actually starting to go dead from not being able to start. I have tested the battery to see if it has enough power, and it does. I have checked the fuses, and no ones blown, and they are not even set to any type of protection. I really do not want to have to get to the dealer to see what the problem is and just have them figure it out, i really wanted to try to fix it myself, but can't get my car to start for some reason. I want to find some way to fix it because i love my car and i dont want
