One of the most popular apps is Paper, there are hundreds of apps out there that allow you to create your own paper cut-outs and effects. In this image, a worker was sitting on his stool with the tyre he was working on, casually leaning back with his left hand showing the side of the wheel. I was intrigued by the way he was looking at the tyre as if he was lost in his thoughts.” “Hand-drawn vectors are a lot of fun! You can use a variety of tools and tools, as well as traditional drawing tools like pencils and markers, in order to achieve the look you want.
