Angiogenesis is a normal process in organ development and postnatal growth, but it has been shown to be implicated in a number of diseases, particularly in cancers and ophthalmic disorders. Molecules that can be used to inhibit angiogenesis hold great promise in therapy. We report the generation of a panel of monoclonal antibodies (MCA) that recognize vascular endothelial growth factor (VEGF), a potent pro-angiogenic polypeptide. Out of several dozen MCA that recognize the protein, we selected several specific antibodies that recognize either (i) VEGF-167, the murine form (mVEGF-167), (ii) VEGF-121, the human form (hVEGF-121), or (iii) VEGF-165, the most abundant and widely used form of VEGF in therapeutics. These antibodies are shown to bind to different epitopes within the VEGF-165 molecule. The specificity and affinity of these antibodies are measured by surface plasmon resonance and were found to be roughly 6 nM for mVEGF-167, 100 nM for hVEGF-121, and in the nanomolar range for hVEGF-165. 1cdb36666d

(MLB.com's Jenifer Langosch) The Washington Nationals have signed 3B Pedro Sanchez to a 1-year deal, according to multiple reports. Sanchez, 29, played for the Nats from 2010-2013. In 1,285 games with Washington, he slashed .282/.333/.400 with 64 HR, 80 SB, and 18.8 K%. The infielder is represented by CAA. He missed the first six weeks of the 2014 season due to surgery on his left thumb, and dealt with a lower back issue during the latter stages of his stay in Washington. He was always a better player on offense than defense. Nationals GM Mike Rizzo declined comment on the signing, with assistant GM John Ricco noting that it's "hard to talk about something that hasn't been finalized." Scouting Report from Dugout Omniscience Sanchez, 29, was acquired from the Cubs in August 2012 along with RHP Ryan Drese for RHP Tsuyoshi Wada. He had struggled to find offensive consistency prior to joining the Cubs, but was coming off a 2015 campaign that saw a

stunning.251/.344/.446 slash line in 177 plate appearances for the White Sox. He missed the first half of the 2014 season due to injury, but has been relatively healthy this year for the Cubs, hitting.285/.343/.477 with 17 homers in 190 games. The addition of Sanchez should give the Nats a bona fide infielder, but he's not the power bat they lacked at the position in the past. One addition that is certainly needed, however, is bullpen help. Their starters have been phenomenal, but the back end of the bullpen has been a mess.Sister Nicki Efrain Almaraz, better known as Sister Nicki (, ), is a Filipino television personality and actress in ABS-CBN Entertainment.
