FP Robot: Perhaps the most highly anticipated new title to be released this year by the stalwart Deep Silver publishing house is being developed by Frictional Games and The Creative Assembly. This will be the first game for which the studio will be working without creator and co-founder Thomas Grip, who left to develop the Godfather sequel Mafia 3. However, I want to be clear that I am writing this preview without knowing precisely what will be in the game. I can say with certainty, however, that at its heart the game is about exploration and story. “Discover a world destroyed by the apocalypse” is the official synopsis that emerges from the Deep Silver site when you browse the Facebook page for the game, however the site leaves much of the story route ambiguous. The “game” starts by describing the setting in the words of the main character: “You are thrown out into the middle of the world with nothing more than a health pack, the clothes on your back and a flashlight. The story you have to tell yourself is simple. You’re a robot. And the robots are coming.” The introductory teaser trailer that has emerged from the development site has this to say about the game: “Don’t fall in love with this world: it’s already dead. But if you search where no man has gone before, you just might find yourself.” Frictional Games is trying to bring a new tone to the survival horror genre. There will be puzzles and different routes to explore as you progress and you will need to be a careful, methodical thinker to solve puzzles such as those that can be found in the teaser trailer. And then there will be monsters to fight, often with only a flashlight and your wits, and to kill. The Trailer I have two brief clips from the original teaser trailer for you to see – one at the beginning when the robot is just waking from a long sleep, and then the final shot which shows the robot stuck on a ledge, treading water in a flooded environment. It is clear from the trailer that the world is decaying, and that the robot will need to use both smarts and physical prowess to explore it and survive. If you missed the teaser trailer I suggest that you take a look at the trailer on the Frictional Games website. The Place There is much about the game that remains hidden. There

The Baltimore Sun revealed some shocking facts about Baltimore’s homicide rate, and showed how the media is glorifying the city’s violence. From Baltimore Fishbowl: Statistics are well-established: as the homicide rate climbs, so does the political will to combat crime. In 1977, the last year of the Spiro T. Agnew administration, Baltimore saw a total of 1,227 homicides. In the 24 years since, the number has jumped to 762. And the numbers show that the murders are increasingly drug related. According to a study from the Violence Policy Center, Baltimore saw: 228 gang-related murders (up 9 percent from 2003); 168 murders with cocaine involvement (a 57 percent increase); 157 murders associated with crack cocaine use (a 55 percent increase) since 1990. In addition to the violent crime in Baltimore, the Baltimore Sun also revealed how the media is cowing to other cities’ media in glorifying the violence of gun-toting gangs. From The Baltimore Sun: “Lying Across America: Why America Can’t Think Straight,” by Frank J. Luntz, a former Republican pollster who calls himself “the preeminent voice for the silent majority,” is regarded by its publisher, HarperCollins, as a much-needed corrective to both the country’s discussion of politics and the lives of the poor. The book contends, among other things, that “the great majority of Americans are marginalized” and that “the existence of a so-called black underclass is untrue.” It also offers a sweeping critique of liberal environmentalist elites, who it argues are “degenerate hippies” who “don’t really care about people.” [Full story] Although the book’s publisher compares it to “Hillbilly Elegy” by J.D. Vance — both books heavily criticizing the “filthy underclass” and American gun culture — “Lying Across America” follows a much different path. While it critiques liberal elites and an oversimplified version of welfare reform, it also harbors a strong dose of nostalgia for the days of Joe Camel and Willie Horton. Moreover, its focus on the “underclass” — the drug-addled, minority neighborhoods where violent crime flourishes
