## **ProtectU (Final 2022)**

### **What's New In ProtectU?**

Take your security to the next level with ProtectedU Anti-Malware Software! This utility provides unparalleled protection against most types of threats, including malware, spyware, and other viruses. Also, it safely removes malware once it has been identified. Prominent Features of ProtectU: One-click scanning to find and remove malware, spyware, rootkits, and other infections with the help of a single click. Step-by-step guide for manual malware removal in case the automatic scan fails to identify malware. Advanced, powerful virus scanner, with over-the-top performance and smarter technology than any other available. Safe and reliable malware removal with its built-in Rootkit Hunter - a first class spyware detection solution that finds and removes almost all spyware and Rootkits. Always up-to-date with the most recent virus definitions and resources. New functionality, designed to make your life easier and make your PC work properly, including scanning virtual machines and network-connected computers. Fully-featured scheduling functionality in order to make sure that you get protection when you need it most. HexEditor Professional is an advanced hex editor that allows you to modify the ASCII, Unicode, BMP, and other formats of text files. The program supports editing text files as is, or you can even add functionality to it, such as highlighting text containing a particular string, exporting selected text in a format, or viewing files in other languages. All of this can be done either by working with the editor windows themselves or by using various tools built into the application. The software also features some useful features such as the ability to change text size, color and alignment, as well as using emoticons. HexEditor supports Unicode and supports text files of various languages, including Arabic, Greek, Cyrillic, Hebrew, and much more. Web Developer Sample Editor is a simple application that lets you edit HTML source code, JavaScript, CSS, and other text files of the same format. The program supports editing, adding, exporting, searching for, and removing HTML codes for web applications. It can be used as a web browser to view web pages and servers, as well as a web-based database. It also features functionality to upload and download files in formats such as HTML, ZIP, RAR, JAR, EXE, and more. Starcopy is a data backup and recovery tool that empowers you to access your files, whether they are stored on
