How can I do it? The trick is to add the item='foo' and the HAVING countdate > 200 AND item = 'foo' After applying the suggested solution, I get the following exception: Exception in thread "main" java.lang.NullPointerException at java.sql.Date.valueOf(Date.java:1474) at I am using java.sql.Timestamp, and I want to transform it to java.util.Date, so that I can then apply some algorithms (such as the query above). A: This is the only way I've got this working... private static Date fromTimestamp(Timestamp timestamp) { return new Date(timestamp.getTime()); } Rapidly growing hepatocellular carcinoma as a complication of a hepatolith. A case of rapidly growing hepatocellular carcinoma presenting with fever, jaundice and anemia in a 54-year-old man with primary hepatocellular carcinoma (HCC) is described. He underwent a curative resection of the tumor, which had a very rapid growth rate. Postoperative histology showed a well-differentiated hepatoblastoma with intratumoral foci of HCC. The clinical and histological features of this neoplasm are discussed.Oligo- and polynucleotides have found use in diagnostic assays.
